TranSched Acquires Ontira

Markham, Ontario, and Vancouver, British Columbia – (April 2, 2007) – TranSched Systems Limited, a unit of Enghouse Systems Limited (TSX: ESL), announced today that they have acquired Ontira Communications of Vancouver, B.C.

Ontira is a leading supplier of Automated Travel Information Systems (ATIS) for the transit and transportation industries, including a variety of solutions including enhanced interactive voice response (IVR) and multi-media systems.

“We felt that Ontira was a natural fit, both in terms of its transportation industry experience, as well as its history in IVR systems,” commented Stephen Sadler, Chairman & CEO of Enghouse.

As Ontira is a private company terms of the transaction were not disclosed.

About TranSched Systems

TranSched is a full-service provider of enterprise software solutions for the public and private transportation industry. They offer products for scheduling, vehicles, operations, maintenance, sales and dispatch in addition to a variety of specialized applications such as demand-response for paratransit, GPS based fleet location systems, IVR systems for customer inquiries and a complete tour management product. TranSched is a unit of [Enghouse Systems Limited](http://www.enghouse.com) (information below). Further information may be obtained from its web site at www.transched.com.
